Kia ora whanau

Firstly, a massive thank you to our Kapa Haka students and Whaeas Stacie and Nikita for the performances on the cruise ship and at the Nga Purapura Festival over the weekend, and to all our students who helped in some capacity at the festival. Excellent representation of our kura and we love seeing you all involved.

There are important messages around student health on the back page. These messages reiterate a class session on Health that Ms Donaldson took with our students to address personal hygiene and staying healthy. Please whanau, if your children are sick, keep them home or make sure to let us know so we can refer them to the public health nurse.

The Interim Reports were posted out on Wednesday. All students should receive this "snapshot" report from the last 5 weeks. If you have not received these by mid next week please let us know.

Enjoy the weekend

Director of Operations

KAPA HAKA

Cruise ship Performance & Nga Purapura Festival

The Kapa Haka roopu, 'Nga Papahu o Whangaroa' represented the school aboard the 'Le Laperouse' cruise ship on Friday night in Paihia. They also performed at the annual 'Nga Purapura Festival' the following day in Kaeo. The dedication and commitment from the roopu was outstanding and enjoyed by the audiences. The roopu have been practising for the 'Te Tai Tokerau Festival' being held in Dargaville on Tuesday 7th and Wednesday 8th April.

RVLTN TOUR

The Revolution Tour uses music, dance, creativity and real-life stories to bring a message of hope, to see positive transformation in young people's lives. They have spoken to over 500,000 young people in schools about resilience, problem-solving, anti-bullying, hope, and strategies for life.

On Wednesday 11th March, the Year 7-10 students were privileged enough to be entertained, encouraged and educated by the crew from RVLTN. They shared stories of young people making a difference in their communities from simple solutions, such as extending a helping hand to fellow students in need.

WEEK 5

WEEK 4

MATAI

PRIMARY Industries

For the first five weeks of this term the juniors in the Primary and Construction Pod had the over-arching theme of preparing for the Nga Purapura Festival. Students came up with a variety of ways to do this.

We were already in the learning phase of preserving the abundant harvest of fruit and vegetables on offer to our school. This was a good reason to sell preserves at the festival. The learning that underpinned this was understanding decomposition and how various preserving methods intervene to slow down or stop the rotting process.

Another concept we worked on to sell at the festival was eco-sourcing seeds and growing them into seedlings. Students learnt about germination and what seeds need to help them grow.

Lastly, we all know how big events produce large amounts of rubbish. Students looked into recycling and started to construct compost bins out of pallets. We set our finished bins in the school horticulture plot.

SCABIES

There have been confirmed cases of Scabies in our school. These students are currently being treated. It is important that if anyone is concerned for their child/ren, that they seek medical help as soon as possible. A letter is attached to the newsletter with further information about gaining access to support.

SUMMARY

The scabies rash looks like small blisters surrounded by red patches.

- Scabies mites are very tiny – the size of a pinhead – so they can be very hard to see.
- Anyone can get scabies – even the cleanest people.
- Scabies spreads easily between family members and friends.
- It is spread by skin contact, and by sharing clothing and bedding. For this reason, it's more common when you have lots of people living together in close contact.

SYMPTOMS

The scabies mite ... gets in your skin and makes you scratch.

- If you have scabies, you'll have a very itchy rash that is worse at bedtime or when you're warm.
- The rash can develop on any parts of your body: between your fingers and toes, on your wrist, inside your elbows, around your waist, and on your bottom.
- Children often get a rash all over their body.
- Adults generally don't get a rash on their head or neck.
- If you think that you or a family member has scabies, talk to your pharmacist or doctor.

TREATMENT

It's important to treat scabies, as it won't go away otherwise.

- Scratching a lot can lead to serious skin infections. People who have scabies for a long time can get permanent scarring of their skin.
- Your pharmacist can give you a cream or lotion to treat the scabies.
- Everyone living in the same house should be treated at the same time – even if they're not itchy.
- It can take up to 4 weeks for the itching to go away.
- If you still have the rash, you'll need to see your doctor.

PREVENTION

To stop scabies spreading:

- Everyone's clothes should be washed in hot water and dried – then put in a sealed plastic bag for 4 days. (Dry cleaning also works.)
- Everyone's bedding and linen – sheets, pillowcases, towels and facecloths – should be washed in hot water.
- It may be necessary to repeat the scabies treatment – talk to your pharmacist or doctor for advice.
- Exclude from school, childcare or work until the day after appropriate treatment.

Oral Health Care

Kia Ora from the Kukupa Mobile Dental Unit

Suz, Ruby, Daena and Rachel will be at Kaeo Primary & Whangaroa College from 10/03/20

We seek to enrol all New Zealand eligible children that are not yet enrolled. We will see all enrolled children who have not had a dental check in the last year. At their dental check-up we will issue consent forms for any student requiring treatment.

Also if you would like to attend any of your child's appointments please advise the team as soon as possible and we will arrange a suitable time.

Please complete, sign and return these forms ASAP to allow us to complete their dental treatment as we are unable to continue treatment until these forms have been returned.

If you have any pre-schoolers or adolescents under 18 years old in the area please feel free to ring us on 0800 MY TEETH or enrol/book on our website <https://www.northlanddnhb.org.nz/myteeth>. You are most welcome to call in and see us to book an appointment.

Remember to brush your teeth twice a day with fluoridated toothpaste, spit don't rinse, floss, drink water and eat healthy snacks.

FREE dental care for under 18s
Kei raro iho i te tekau mā waru, kāhore he utu

Dental care is **FREE** from birth till your 18th birthday, even if you are no longer at school.
